

Sec. 5. And be it further enacted, That the funds appropriated by the act of June fourteenth eighteen hundred and thirty-six, entitled "An act making appropriations for the current expenses of the Indian Department for Indian annuities and other similar objects for the year eighteen hundred and thirty-six, for the removal of the Winnebago Indians, may be expended upon such of the said Indians as actually removed, and upon no others. And the said Indians shall be removed either to the neutral ground or such country as may be assigned to them by treaty on the southwest side of the river Missouri.

JAMES K. POLK,
Speaker of the House of Representatives.
W. R. KING,
President of the Senate pro tempore.
Approved, July 2d, 1836
NDR W JACKSON.

Indian Affairs.

From the Charleston Courier.

LATEST FROM FLORIDA.

Further Indian massacres.—The schooner *George & Mary*, Capt. Willey, arrived at this port yesterday morning, in the remarkably short run of 24 hours from Jacksonville, E. F.

We are indebted to Capt. Willey for a detail of some further depredations committed by the Seminole Indians, in Florida, upon the life and property of the defenceless inhabitants of that ill-fated territory, calculated to harrow up the feelings, and excite the indignation of every citizen, and to make us feel still more powerfully, if possible, the absolute necessity of taking the most prompt and energetic measures, to extirpate these ruthless savages from every part of our territory, occupied by civilized inhabitants. We could almost say that even *mercy* to them, is equivalent to the *murder* of our own citizens.

Capt. Willey copied from the log book of the United States Steam boat *Essayan*, the following particulars: "On the morning of the 16th inst., while on the way down Black Creek, discovered an Indian in a hammock on the bank, who did not fire on the boat at 8 o'clock, in St. John's River, saw a boat coming from Col. Hallow's plantation, having Col. Hallow and Dr. Simmons, and a few negroes on board. It appeared that the Indians had fired upon the former gentleman while in his room in conversation with Dr. Simmons, and wounded him in the head causing him to faint and fall. Dr. Simmons, with the assistance of some negroes, picked him up, carried him to the boat, at the landing, and shoved off. The Indians pursued them and fired upon the boat, but fortunately injured no one. In a few minutes afterwards, the dwelling of Col. Hallow was fired, and in a short time Dr. Simmons' house was also burned. The *Essayan* ran over to George and Lewis Flemming's plantation, took off their families and negroes, and then proceeded to Pocolata, and reported the above occurrences to the commanding officer at that post, who departed on the 17th inst. Six Mile Creek, for the purpose of intercepting the Indians, on their return. At 5 P. M. the *Essayan* returned to Hallow's plantation, and found Mr. Colt's dwelling, (which was near that of Col. H.) on fire. While off the landing, one of Col. Hallow's negroes made his appearance, and gave a signal, evincing his wish to get on board, upon which the small boat was sent for him. He stated that the Indians were 30 strong, and were back come down upon the whites for the purpose of spilling their blood, and that the way he had been enabled to escape, was, that they sent him to the landing to see if any troops were coming. He said they were whooping and dancing in front of Col. Hallow's house, while it was burning. The negro was sent back to the landing, and succeeded in getting all the negroes belonging to Col. Hallow, (with one exception only, who was taken prisoner by the Indians) on board.

In addition to the above particulars, Capt. Willey informs us that the Indians had shot and killed a Mr. Bullman, about 4 miles from Whitesville, and stabbed him with a knife in 4 or 5 places—his wife and children made their escape to Gary's ferry.

Col. Hallow's negro fellow, who escaped on board the *Essayan*, reported that a large body of Indians were on their way down the east and west side of the St. John's River, and expressed their intention of destroying all the settlements on the river.

The buildings on Lt. L'Engle's plantation had been destroyed. The loss of valuable property, furniture, &c. in the various buildings burnt, is said to have been very great.

Capt. Curry of the Florida militia, had been sent from Mandarin to Gary's Ferry, to escort a train of baggage wagons, containing provisions and supplies for the troops, from thence to Fort Drane. On this expedition he found that the Indians kept in his immediate vicinity, frequently encamping within 3 miles of his troops. On his return to Gary's Ferry, he discovered a number of Indian trails, from which he ascertained that they were proceeding towards Jacksonville.

Capt. C. informs there were 140 of the troops sick at Fort Drane—among them *five* out of *seven* of the officers.

Fifty-two persons had died at Black Creek, in forty days, from measles and diarrhoea.

The inhabitants of Jacksonville were in a state of great alarm, and were embarking, with their effects, on board the *Motion*, Capt. Willey, bound for St. Marys.

From the Standard of Union Extra, July 29.
GOOD NEWS.

The following letter from General Wil-

cox to the Governor, contains the cheering intelligence of a brilliant and decisive battle between a corps of Volunteers from the county of Lowndes, and a party of hostile Indians, supposed to be the same which lately passed through Baker.

The Georgia boys have done honor to themselves and their State, and relieved a large portion of their fellow citizens from the predatory inroads of this band of out-laws.

TELFAIR COUNTY, July 10.

Governor Schley.—Dear Sir.—I have this moment learned by express from one of the posts on the head waters of the Suwannee, that they had an engagement yesterday, with a party of Indians, in which our friends succeeded in killing and capturing the whole. We lost in the engagement, three killed and six or eight wounded. The Indians had nineteen killed. Among the killed I regret to state there were three women and one child. Twenty prisoners, all women and children.

I am not able to state who commanded, but suppose it to be Col. Blair of Lowndes. You must excuse the shortness of my letter, as it is written on a temporary table, and in great haste.

Very respectfully, your ob't. servt.

MARK WILCOX.

P. S.—The persons killed are, Pennywell Folsen, Mr. Shanks, and Mr. Parris.

From the Columbus Sentinel.

By the following extract of a letter, received from our correspondent at Fort Gaines, it will be seen that as soon as the troops left Baker county, the Indians made their appearance. Would it not be advisable to station a company of troops at some point in Baker, and one at Fort Gaines, to lend a helping hand in case of need. It has been suggested by the people of that section, that they are apprehensive of danger, from continued incursions of hostile parties from the Nation escaping to Florida. We think that they are in much danger, and steps should be taken to relieve them by Gen. Jessup or Gen. Sanford, to whom the Georgians now look for aid. As Gen. Jessup is taking good care of the people of Alabama and the hostiles, common justice requires that Gen. Sanford should take the responsibility of aiding his exposed fellow-citizens of Georgia.

The people of Baker have a right to expect and receive this aid as well as the inhabitants of Stewart and Troup counties, both of which have a force continually on their River line.

FR. GAINES, 18th July, 1836

Editors of the *Sentinel*.—Gentlemen—I wish you to announce the death of John M. Hardison, who was killed at the battle of Chickasahatchie, in Baker, on the 2d inst. He was 26 years of age, beloved and respected by all who knew him.

Some Indians have been seen in Baker since the troops were dismissed from there. The mail rider just arrived from Baker, states that thirty Indians were seen there on Thursday last, all mounted, on a creek called Hurricane Creek, about ten miles above the battle ground.

With respect,

JOHN DELL.

PENSACOLA, July 9.

The U. S. cutter Washington, E. Jones Esq. Commander, arrived here on the 4th inst, from Tampa Bay. The expedition to Tallahassee under the command of Capt. J. and Lieut. Adams of the Navy, returned to Tampa, on the 23d ult. The cutter brings no news from Tampa. The hostile Indians are occasionally seen as heard of there. About two weeks ago two of them were found indulging their curiosity, by looking into the stockade from a neighboring tree top. A piece of artillery was immediately brought to bear upon the tree, but the Indians were not hurt here. A party was sent out in pursuit of them, but as usual, returned without finding them. Capt. Jones thinks there is a large party of hostile Indians at Withlacoochee, another at Mayaca, which empties into Charlotte Harbor or Bay, about 25 miles from the entrance into the Bay, and a third is on Sinehal River.

The U. S. steamer Lieut. Izard, Geo. M. Bache, Lt. Commanding, started on Thursday last for Apalachicola, and is to run up the Chattahoochee and co-operate with the army. It is supposed that the forces now employed against the Creeks, will shortly be transferred to the southern coast of Florida, in which case this boat will be very serviceable, drawing but 2 1/2 feet when light. She is armed with two 6 pounders and a compliment of 40 men. The following is a list of her officers: G. M. Bache, Lieut. Commanding. Midshipmen—Wm. B. Beverly, Wm. L. Parkison, and L. L. Creecy.

Steam Navigation to Europe.—The New York Courier says:—We are happy to have it in our power to state, that Capt. Cobb and his assistants of "the Atlantic Steam Company," have completed all their arrangements for establishing a Line of Steam Packets between this port and Liverpool, and have actually contracted with Messrs Brown & Bell, for a Boat suitable for their purpose, the building of which, will commence immediately.—They have also contracted with Mr. P. A. Sabbath for the engine, the flues of which will be constructed for burning Anthracite Coal. This information we are quite certain, give very general satisfaction both here and in Liverpool, and we may add, that at the meeting of the next Legislature, the Company will probably apply for an act of incorporation, with a capital of two millions of dollars.

ENGLISH GARDEN SEED

The subscribers are now receiving a supply of English Garden Seeds of the growth of 1835, which they can recommend with great confidence to their friends and customers, as being fresh and genuine.

- Among which are the following
- | | |
|-------------------------|--------------------------|
| Early Dutch Cabbage, | Garden Cress, |
| Late Dutch do | Giant Asparagus, |
| Large Early York do | Curled Parsley, |
| " Sugar Leaf do | White Solid Celery, |
| Large Drumhead, do | Long Globe Artichoke, |
| Mountain do | Long Orange Carrot, |
| Green Glazed do | Early Orange Horn do |
| Early Curled Savoy, | Summer Bush Squash |
| Colwart or Collards, | Crook Necked do |
